Microsoft Outlook IMAP Setup Guide

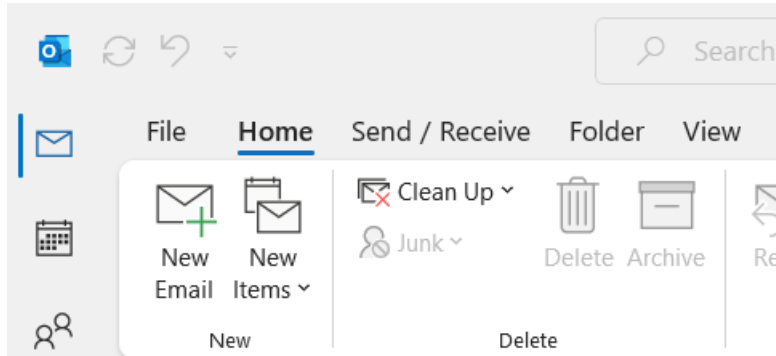

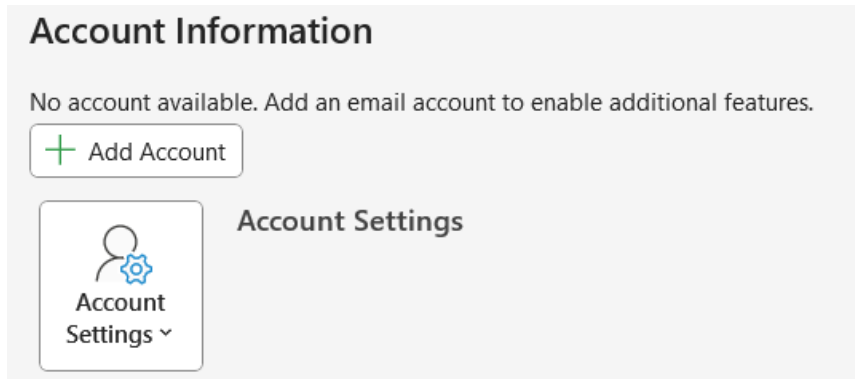

Open Microsoft Outlook and click on the **FILE** option in the top left corner.

Click **Add Account.**

Enter your entire **1791.com** email address in the Email Address field, Click on
Advanced Options and check the **Let me set up my account manually option**
then click **Connect.**

Select **IMAP.**

Password

Enter your **1791.com** account password and click **Connect** at the bottom. Your account will connect within several minutes and emails will start to download and you're ready to go! Enjoy your account.
